### MARIGOLD Mammoth Mum

A large incurved chrysanthemum-flowered Marigold and a close rival to the big Japanese Chrysanthemum. Bushy, strong, erect plants reach 3 ft. by August, when long-stemmed flowers appear to amaze one with huge blooms, 4-5 in. across and 2 in. deep; color is rich lemon-yellow. Flowering from August until freezing weather, it makes a colorful show in the garden and gives long-lasting cut flowers. (*Honorable Mention A.A.S. 1944*).

### MARIGOLD Sunkist (Dwarf French Harmony Type)

A fine companion to the varieties "Butterball" and "Spry". Rich, deep golden orange, the 2 in. blooms with small crested centers and several rows of guard petals literally cover the tiny 6-8 in. mound-like plants. Exceptionally early and free flowering. (*Silver Medal A.A.S. 1943*).

Tr. Pkt. .... 25c      1/4 oz. .... 45c      1 oz. .... \$1.50

### PETUNIA ALL-DOUBLE "America"

The first All-Double Petunia produced in America. Medium-sized carnation-flowered blooms of a pleasing rose-pink color. Free blooming nana compacta. (*Silver Medal A.A.S. 1943*).

### PETUNIA "Cheerful"

A clear, light pink, free-flowering beauty; deeper in color than "First Lady", and with a slight suffusion of salmon. Rather compact growing for bedding use, suitable for pots and window boxes, the foot-tall, mound-shaped plants are practically covered with large single 2½-in. flowers of good substance. (*Bronze Medal A.A.S. 1944*).

Tr. Pkt. .... 50c      1/32 oz. .... \$1.25      1/16 oz. .... \$2.00

### PRIMULA OBCONICA "Wyaston Wonder"

This famous English variety is undoubtedly the most outstanding Primula produced in recent years. Enormous trusses of stiff-stemmed bright crimson flowers; the individual florets average 2½-in. across. This Primula is strictly in a class by itself and sells on sight, it has no rival in the size of its flowers, its perfection of form and vigor of growth.

### FOR THE DURATION IT PAYS TO — ORDER EARLY —

Due to lack of imports because of world conditions and the ever increasing production of vegetable seeds and crops by California growers, who in the past have specialized in the production of flower seeds exclusively, and now are devoting a large percentage of their acreage to the growing of vegetable crops urgently needed in the war effort, seed supplies are not too plentiful this year. Shortages in a number of items are bound to develop as the season progresses.

We are going to do our very best to take care of the requirements of all our customers, and in order to enable us to give you the most complete and satisfactory service, we urge all our friends to — ORDER EARLY —.

# ANNUAL FLOWER SEEDS

WE PAY PARCEL POST AND INSURANCE ON ALL FLOWER — AND VEGETABLE SEED ORDERS AT PRICES QUOTED IN THIS LIST TO ANY POST OFFICE IN THE UNITED STATES OR CANADA.
